Damage you do

"And when we hit the pavement, we found we had covered the last 54 miles in an hour and twenty minutes." "Hitting it up" in the country where the traffic is lightest.
SPEEDING—because the road ahead is clear.

Never a thought of the needless damage done to the highway by this excessive speed. Never a worry about the hundreds of thousands of dollars spent yearly to make good the road surfaces torn up by automobiles that move too fast.

The law provides a speed limit to save road surfaces, as was to save motorists from accident. While the highway me be clear and there may be no danger of accident, rement the road is always beneath you and that needless damage do by yourself and hundreds of thousands of other motorist damage which you and the other motorists will pay for out of your own pockets.

You have no right to destroy the property of others, and it is not common sense that you should destroy your own. Yet you do this every time you exceed the speed limit.

Take a pride in the highways. They are yours to use, to abuse... Co-operate with the Counties and the Governme in maintaining Ontario's roads among the best on the contine

The Government requests you to obey the law whether there is a traffic officer in the vicinity or not. Having made this request for co-operation of all motorists, it gives notice that infractions of the law will be vigorously prosecuted.

An adventisement issued by the Ontario Department of Highways to secure the co-oper-ation of motorists and truck drivers, Automobile Clubs, Good Roads Associations and all other public spirited bodies, in abating the abuse of the roads of the Province.

ALWAYS slip a few bars of Neilson's Jersey Milk into the picnic basket. Easy to carry and easy to eat, these attractive white-and-gold packages make a most alluring super-dessert.

You see, there are no nuts, fruit or fancy mixtures in Neilson's Jersey Milk. It is a bar of plain solid milk chocolate—of the highest quality—so you may be sure it will appeal to everybody.

It has a new flavor-distinctive, and all its own. Look for the white-and-gold wrapper.

TWO women went out to buy a certain expensive labor-saving device for thehome One was greatly disappointed when, a few days later, they compared notes. She had bought the same product that many of her friends had owned.

The other woman had secured a greatly improved, new product-costing less, but of much more value.

"If I had only known there was a better one,"the first woman said,"I would never have bought this old one.

"I had just read about it in an advertisement," explained the wise buyer.

THE GROWTH OF OUR BUSINESS has necessitated the make ing of more floor space, and alteration must be made at once with that end in view. Arrangements have already been made with the contractors to carry out this expansion idea, the only obstacle in the way of an immediate start being the large stock of goods, which we have on hand. To remove this obstacle we have decided to dispose of this large and up-to-date stock REGARDLESS OF COST.

WE MUST HAVE THE STORE CLEAR IN TEN DAYS. YOU'D NEVER BELIEVE SUCH VALUES POSSIBLE—BARGAINS SUPREME IN EVERY SENSE OF THE WORD!

GETS OLD JAPANESE BOOKS

Seattle July 10.-Twenty-five

Scattle, July 10.—Twenty-five vol-umes of Japanese poetry depicting vivid by life in Japan in the eighteenth cen-tury recently were presented to the Uni-versity of Washington library by Pro-fessor Andraki, librarian of the Univer-

fessor Anéski, librarian of the Univer-sity of Tokyo.

The volumes, which took nine years to compile, are part of an edition made from two copies of a collection saved from destruction in the Japanese earth-quake in September, 1923. All but two unbound sets were destroyed by the

CIFTS OF BLOOD.

(St. Thouas Times-Journal) citish government has conferred a de bontion upon a member of an ambulance corps During the last five years he has on 66 occasion given a pint of his blood to patients in a Londo spital, who were in a critical condition. He is tite a poor man, has never sought a penny re-ard, and says he did it to "help the hospital." word, and says he did it to "hatp the hospital." There's dee picity, who were they would give their Ule-blood" for 'we came or handher. Hene is a stain, which is treatly desight the holp our heap! take with lived, zamed fruit, and sometimes smerely. How many ever think of offering their blood! It indjust is useful in a hospital as any other girt. Large institutions have their lights of "rightare contributions of blood, tested and taken." id healthy people ready to answer a se call. Any hospital would appreciate an offer of that kind. It means a great deal more than a chaque; it may mean the saving of somebody's and money alone cannot do that

TO A WORKER

TO A WORKER.

Oh, worker, going forth today,
To do your bit and earn your pay,
Amid machinery's hum and whise,
Or down into the darksome mine; Where city's buildings reach up high, Or farm lands roll beneath the sky-What think you of your job to-day? Are you just working for the pay, Or do you throb with joy of it, And feel how worth-while is your bit, And that the work you do is part Of all the world's great throbbing heart? That job of yours, if it's well done, Oh friend, 's a part of victory won Over the things that should not be And reaches to Eternity!

This Helpful Book Is Free "Baby's Welfere"-

Baby is too precious for food experiments. Nurse him if at all possible but if you cannot, put him on Eagle Brand at once and BE SURE his food is right. Highest medical authorities have endorsed Eagle Brand as the SAFE inlant food when Nature's supply is not available. Hundreds of thousands of mothers have successfully reared their bables out since 1857. No matter how young baby is he will like Eagle Brand. It is absolutely pure, always the same in quality, and cassily digested by the most delicate infant. It's preparation is simple and it keeps wholesome for a long time after opening the can if a glass is placed

Reliable News

If "SO-AND-SO" told you that "Somebody" said "such-and-such" was a good buy-you probably wouldn't buy it.

But if you read an advertisement in this paper about the merits of that productyou'd have confidence in it.

Never was there a more severe test of the worth of a product than advertising! ? You can pin your faith to an advertised product every time. It invites the inspection of millions and it must be worthy or it cannot live. Read the advertisements for reliable news of what is wise to buy.

Now-a One-Profit Car in the Quality Field

STUDEBAKER has achieved one-profit manufacture in the quality field. This marks a new era in the automobile industry. Studebaker's achievement eliminates unnecessary profits running to \$300 on a single car. It banishes double overhead. It results in quantity production of quality cars. It vitally directs pricing by establishing a new criterion of value in the fine car field.

Exploded! The Idea That Car Luxury Means High Cost

All that is finest in motor car enjoyment—all that the heavy, cumbersome cars can give—the Chrysler Six affords.

Space engineering makes the Chrysler

More than that, it joins to these advantages the glorious performance and driving ease in which the Chrysler Six surpasses anything the industry has known.

It does all this at a low first cost— and low after-costs—which would enable you to buy and keep two Chrysler Six cars at approximately the cost of one of the heavier, older-

Space engineering makes the Chrysler Six a revelation in generous roomi-ness. Its roadability and ease of rid-ing are unsurpassed.

And Chrysler is unsurpassed, too, in that plain, old-fashioned, common-sense economy that enables you to do more with your money.

We're downright eager to have you put this car through its paces—with you at the wheel. Come in and try it.

What John K. Costs You

John K. McCarthy drives to his summer home every Friday night and comes back Monday.

It's 98 miles, and he makes it in less than 3 hours. His roadster can turn, over sixty miles an hour with ease, and it ides comfortably at forty-five.

John K. gets about 14 miles to the gallon on the road. As a careful business man, he figures that oil and gas cost him about \$5.20 for each round trip.

No one could ever accuse John K. McCarthy of deliberately being careless with property, either his own or belonging to someone else. But every time his high-powered care above twenty-five miles an hour, it causes needless destruction to the roads by grinding away the surface.

John K's trips to his summer home cost the people of Ontario more for road repairs than they cost John K, for gas and oil.

There are thousands of "John K. McCarthy's" in Ontario. They mean to be a careful with other people's property as with their own, but they do not know that speed laws are meant to preserve rout surfaces.

If you are a "John K. McCarthy," this advertisement is addressed to you. The Government of the Province and the various County authorities have provided an extensive system of good highways over which you may travel without out. They look to you to do your share in keeping there highways in good condition.

You wouldn't wilfully destroy property. Don't wilfully destroy the highways.

An advertisement issued by the Ontario Department of Highways to secure the co-oper-ation of motorius and track drivers, Automobile Clubs, Good Roads Associations and all other public spirited bodies, in abating the abuse of the roads of the Province. A Mistake

that some beauty seekers are making-They are misled on "olive and palm" soaps

DO you realize, Madam, that "olive and palm" soaps are ages and ages old? But never has one, before Palmbilive, brought companies. has one, before Palmolive, brought comparable results to the skin.

Palmolive Soap is a masterpiece, based on 60 years of soap study. It is a scientific creation, made to bring new beauty to the skin. Made to keep schoolgirl complexions.

Its unique results have led millions to adopt it. Now it is made in five countries, to supply the world-wide demand. It is made in France, because French women find in this their ideal of a soan.

Soft, velvety complexions are many times as common as they were before Palmolive came. Then don't accept ordinary "olive and palm" soaps, with artificial color, and often super-fatted.

Palmolive costs 10 cents-no more than the price of most ordinary soaps. But that is due to enormous production. Palmolive has become the leading toilet soap of the world. The only, two soaps we know that fairly compare with it cost 25 cents per cake.

This warning is in your interest. There is a way to keep youthful complexions, and multitudes have found it. But that way is not a mere "olive and palm" soap. It is found in Palmolive alone.

Note the sunarinal "too green" color of Palmolive imitators. What does that suggest? Men don't paint nature to improve it.

Olive and palm oils—nothing else—give Palmolive its delicate, natural color. Olive and palm oils—no other fats whatsoever—are used in Palmolive.

No "super-fatting," no "super-anything"—the only secret to Palmolive is its blending. And that is judged one of the world's priceless beauty secrets.

Let no one convince you—for your own sake—that any ordinary type of "olive and palm" soap can bring you Palmolive results.

Wash, launder, cleanse with any soap you wish. But when beauty is at stake—take care.
Use Palmolive, nature's formula to "Keep That Schoolgirl Complexion."

IN PARIS

French women are discarding French soaps for Palmolive

Palmolive is today one of the two grees selling toilet soaps in France. Parisian be title are tappy to pay almost twice as m for a cake of Palmolive as Canadian wo pay. And, in many cases, three time much as for their given French soaps, member this when tempted by coatly Fre soaps, or by "French" claims for soaps.

-- Peace Celebration Sale--

Prepare For Your Visitors By Making The Home Cheerful, At Marvellously Low Cost

We have secured and are placing on sale about Three Hundred ART. PIC-TURES framed complete for

\$1.00 and \$2.00 each Pictures worth from five to twenty dollars each.

In most cases the glass alone is worth the price asked—Many of the frames alone are worth \$5.00 each.

Many of the pictures are worth from \$5.00 to \$10 each.

Hand Colors, Prints, Steels, Etchings, Carbons-We did not steal these pictures we are just clearing house and have made some big discoveries. Some are pictures left for framing and never redeemed. The opportunity is one in a lifetime and it is yours.

Pictures will be on display Friday morning, 24th inst., but will not be sold or reserved until 8.30 a.m. of Saturday, 25th July All will then have the very same opportunity.

The only pictures held back from the sale will be a dozen which will be marked reserved—every picture, should be sold during the opening day but if not the sale will continue until all are sold.

BALLOON GUM-DIPPED CORDS

For every fibre is insulated with rubber adding great strength to each cord, which stands the extra flexing strain in balloon tires. The Gum-Dipping process is the very found-ation of low-pressure construction.

Gum-Dipping minimizes friction, which explains why Firestone Full-Size Balloons keep cool in hard service and give more mileage—why they are the safest, most economical and comfortable tires to use.

Gum-Dipped Balloons hold world's speed records for the great 500-mile Race at Indianapolis, setting a new world's record of 101.13 miles, per hour and they recently established new Canadian records on tracks in the West.

Ride on these wonderful tires. Enjoy their new economy. Let the nearest Firestone dealer equip your car at low cost.

For your money is used to repair damaged roads in Ontario. The user must pay. In your own interest, you are requested to minimize this damage, and you can do so by moderate

driving.

The disposition of yourself and almost all other users of the roads is good, if you will only think. Your co-operation is thus confidently depended upon. To those who disregard the law and this request, notice is given that vigorous prosecution will follow where speed limits are broken.

An advertisement issued by the Onarrio Department of Highways to secure the co-operation of motorists and mack drivers, Automobile Clubs, Good Roads Associations and all other public spirited bodies, in abating the abuse of the roads of the province.

You would not like to hire anyone without a good reference. Why not extend the same plan to the servants you buy for your home—the servants that sweep your floors that wash and iron your clothes-that play music for you-that feed your family?

You can buy such servants-vacuum cleaners, washers and ironers, phonographs and food-with or without references. When they are advertised, they are vouched for by a responsible person-the merchant or manufacturer. You can buy them with confidence-knowing that they must live up to their references.

An advertisement is more than a reference-it is a certified check of Satisfaction

Feel More Confident Coal Strike May Fail

London, July 28.—Some feeling that the threatened British coal strike may be averted modified to day the previously prevailing pessimism.

inium.

After, a lengthy cabinet discussion of the situation belief increased that the coal mine owners might respond to Premise Eddurin's plan whereby workers and owners would resume negotiations and the strike order for July 31. be rescinded. This hope was reflected on the stock suchange where this morning's market showed a more confident tone.

Gave Greater Mileage with Less Wear

THIS test tells the story! Look at the prema-ture and undue side wear on tire A, with its insuitable round tread!

Look at the evenly-distributed, natural wear or tire B, under identical conditions, except that is travelled 1,000 miles more.

Tire B is the new Low-Pressure Tread of Dominion Royal Cord Balloons, giving 15% to 25% more road contact—and decidedly, more wear. Low-Pressure Tread also permits lower tire pressure, more cushioning—greater com-fort—better traction—casier steering.

THE AMERICAN FLAGE

A well known Belleville man approach ed The Intelligencer this morning and asked: "This coming Celebration is bo-tween Canada and what other country?" The question was asked for the purpose The question was asked for the purpose or hearing the answer, not for informat-ion. "Why, it's between Canada and the United States, of course." "H'm," but suid, "I'm glad you told ner. I haven' seen the American flag flying on the stretis. I wan't sure what country we were pelebrating with."
